

~~CONFIDENTIAL~~

26 October 1955

MEMORANDUM FOR: CHIEF, TSS/TSL

SUBJECT : Development of Rail Power Supply

REFERENCE : (a) Memo of 5/23/55 to C/TSS/TSL from [redacted]
[redacted] TSS/AFD, requesting survey of problem
of development of rail power supply

25X1

25X1

1. In the referenced memorandum TSL was requested to determine the feasibility of developing a portable rail power supply. On about 15 September 1955 [redacted] of TSS/TSL indicated the development of the subject device was possible.

25X1

2. It is requested that the development of a railroad power supply device be initiated on a low priority basis. The subject device will have possible application to AFD projects on automatic collection of information on rail movements.

3. [redacted] of TSS/AFD should be contacted in reference to this request.
